

Drive your business faster with specialist vehicle inspection and mobile solutions

autocheck

driving your auction business faster

Benefits Realised

- Lower overheads through reduced manual processes.
- Increased visibility of key operational processes.
- Improved accuracy and reduced errors through menu driven inspection templates.
- Better integration of market data, providing more consistency in pricing and valuations.
- Faster and more accurate processing, leading to faster vehicle listings and reduced stock holding times.
- Track vehicle information and damage from the time the vehicle is purchased to the point it is received.

Do you experience delays in loading new vehicles into your auction management system?

Could stock be available sooner to your sales team and online for customers to view?

Is vehicle data sometimes inaccurate or inconsistent?

Would you like to better monitor the processing of vehicles on the floor?

Move vehicles to listing faster, improve the consistency of valuations and increase the speed of your marketing by collecting and processing vehicle information before it hits the floor.

AutoCheck can cater an inspection process for

- ✓ General motor vehicles
- ✓ Light commercials
- ✓ Motorcycles
- ✓ Trucks and other heavy commercial vehicles

Netresult Mobility provides mobile computing solutions that enable companies in the automotive industry to drive their business faster. Our solutions help all parts of the vehicle supply chain, from wholesale financiers right through to consumers, improving the speed and quality of their decisions about vehicles.

Netresult Mobility has customers across the UK, Australia and New Zealand including, Pickles Auctions, Carlins, Turners Auctions, and vehicle inspection services like the New Zealand Automobile Association, RACQ in Queensland and the NRMA in New South Wales, and wholesale vehicle financiers including Toyota Financial Services, St George Bank and GE Money.

AutoCheck is used by auction and remarketing companies like Turners Auctions NZ, Pickles Auctions Australia, Carlins Auctions Australia, and G3 Remarketing UK.

Visit our website www.netresultmobility.com for more information.

Drive your business faster with specialist vehicle inspection and mobile solutions

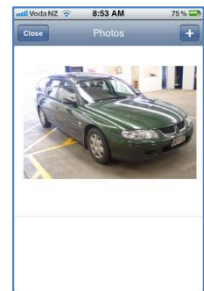

Mobile buying tools

- Integrated with CAP, Red Book, and Glass's for vehicle description and valuation including feature and odometer adjustments.
- Integrated with REV's, Experian, and HPI for security and history checks.
- Weekly buying requirements and visibility of current stock – no longer need paper based reports.
- Historical vehicle sales history – no longer need paper based reports.

Condition and damage tracking

- Vehicle images and photos used to indicate location and severity of damage.
- Automatically load existing damage from the previous inspection making it easier to identify new damage.
- Track and identify missing vehicle features and options.

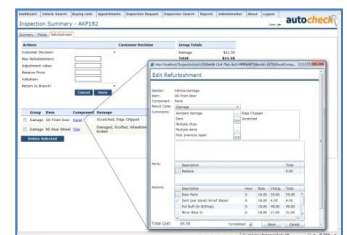

Inspection management

- Fully configurable inspection templates, damage descriptions, and repair price menus specific to the vehicle being inspected.
- Vehicle images for sedans, wagons, light commercials, motorcycle, trucks and more.
- Control the mandatory information required to complete the inspection.

Integration & reporting tools

- Automatically load all known vehicle details based on registration, VIN, or barcode.
- Integrate with your auction or dealer management system for automatic upload of vehicle information and damage.
- Notification services for automatic requests to third party suppliers e.g. transportation services.
- Notification alerts covering excessive odometer reading since vehicle was purchased, and missing parts, e.g. navigation disks.
