

Drive your business faster with specialist vehicle inspection and mobile solutions

autocheck

driving your inspection business faster

Benefits Realised

- Lower administration overheads through reduced manual processes
- Increased productivity through more efficient job allocation
- Increased visibility of key operational processes
- Improved accuracy and reduced errors through menu driven inspection templates
- Improved customer service by automated report delivery and web tools
- Remove requirement for paper forms. Reduced printing costs plus greater control over the delivery of an inspection
- Reduced call centre staff training requirements. AutoCheck handles the allocation, users just need to enter the correct details

Do you have a clear picture of inspector availability and status of your appointments?

Is your appointment allocation process cumbersome and time consuming to manage?

Do you want to be able to incorporate new inspection requirements without having to re-print all your inspection forms?

Do your customers sometimes have difficulty reading hand written inspection reports?

Make it easier for your customers to use your service, increase the efficiency of the inspection process and respond to new market opportunities faster by giving inspectors productivity tools and giving customers direct web access to booking systems and reporting.

AutoCheck can cater an inspection process for

- ✓ General motor vehicles
- ✓ Light commercials
- ✓ Motorcycles
- ✓ Trucks and other heavy commercial vehicles

Netresult Mobility provides mobile computing solutions that enable companies in the automotive industry to drive their business faster. Our solutions help all parts of the vehicle supply chain, from wholesale financiers right through to consumers, improving the speed and quality of their decisions about vehicles.

Netresult Mobility has customers across the UK, Australia and New Zealand including, Pickles Auctions, Carlins, Turners Auctions, and vehicle inspection services like the New Zealand Automobile Association, RACQ in Queensland and the NRMA in New South Wales, and wholesale vehicle financiers including Toyota Financial Services, St George Bank and GE Money.

AutoCheck is used by NZ AA, RAC Queensland, NRMA, and RAC Western Australia.

Visit our website www.netresultmobility.com for more information.

Drive your business faster with specialist vehicle inspection and mobile solutions

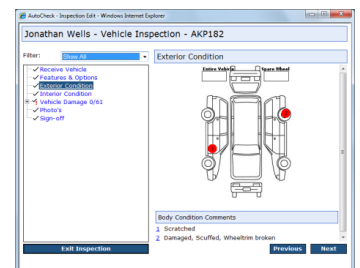

Appointment management

- Auto-allocation based on inspector availability, skill sets, and required inspection duration.
- Control the maximum travel time between inspections
- Configurable call centre scripting notes.
- Configuration options determine how long the vehicle is required to complete the inspection; specific time, AM / PM, all day.
- Optimisation rules include matching appointments within the same suburb or location to reduce travel requirements of inspectors.
- Maximum travel time rules prevent excessive travel between appointments.
- Dashboard allows managers to track inspection progress and issues.

Inspection management

- Fully configurable inspection templates, damage comments.
- Vehicle images for sedans, wagons, light commercials, motorcycles, trucks and more.
- Control the mandatory information required to complete the inspection.
- Report versioning allows tracking of changes to an inspection after it has been printed or emailed.
- Web and PDA based inspection tools.

Integration & reporting tools

- Automatically deliver completed inspection reports via email or fax.
- Comprehensive management reporting including inspector productivity and utilisation.
- Appointment API's allowing external applications, e.g. your public website, to request appointment times allowing for customers to confirm an appointment 24/7 – no call centre interaction required.
- Integration options with street finder tools e.g. Google Maps
